Dear Mr. Towle,

Enclosed is my response to the letter I received from Mr. Smith, dated June 28, 1988 in regards to the Keystone Sanitation Landfill. As indicated in my response to his questionnaire, we are not a manufacturing firm nor do we use any chemicals in our business. We are a pension administration company and a life insurance agency. I have two employees in addition to myself in the office. We use on average one garbage bag per week for the normal waste which consists mainly of 8 1/2 X 11 sheets of paper from our computer and correspondence we receive from other companies. I hope this information is helpful in your survey and if we can be of further help we would be most happy to cooperate.

Sincerely,

Leonard J. Ferrara
